Chapter I

General rules

Read first the subject of the main project!!

The mid-evaluation is used by the campus to make sure that everything is going as expected during this internship. It will also impact the startup internship project's final mark, along with the other evaluations and the duration.

Important information regarding this evaluation:

- This evaluation is sent halfway through your contract.
- Your tutor should receive an email 2 weeks before the evaluation date.
- You should plan a meeting together to complete this evaluation.
- It is highly recommended that both the tutor and the student are present during evaluation. However, if it is not possible, the tutor can do it alone.
- If your tutor doesn't receive the evaluation, you can re-send it on the companies site on the intranet: (**resend evaluation**).
- Make sure that the email given when signing the contract is correct!!
- If you face some problem you can contact the Business Relations team of your campus, they will be able to have a look into it.
