

Projet libre : Do it

Get to work

Summary: Now that you've bitten off more than you can chew and your first part is validated, you need to do the project.

Chapter I

Préambule

Jules: Hey kids! How you boys doin'?

Jules: Hey, keep chillin'. You know who we are? We're associates of your business partner Marsellus Wallace. You do remember your business partner don't you? Let me take a wild guess here. You're Brett, right?

Brett: Yeah.

Jules: I thought so. You remember your business partner Marsellus Wallace, don't you, Brett?

Brett: Yeah, yeah, I remember him.

Jules: Good. Looks like me an Vincent caught you boys at breakfast. Sorry about that. Whatcha havin'?

Brett: Hamburgers.

Jules: Hamburgers! The cornerstone of any nutritious breakfast. What kind of hamburgers?

Brett: Ch-cheeseburgers.

Jules: No, no no, where'd you get 'em? McDonalds? Wendy's? Jack in the Box? Where?

Brett: Big Kahuna Burger.

Jules: Big Kahuna Burger. That's that Hawaiian burger joint. I hear they got some tasty burgers. I ain't never had one myself. How are they?

Brett: They're good.

Jules: Mind if I try one of yours? This is yours here, right?

Jules: Mmm-mmmm. That is a tasty burger. Vincent, ever have a Big Kahuna Burger?

Jules: Wanna bite? They're real tasty.

Vincent: Ain't hungry.

Jules: Well, if you like burgers give 'em a try sometime. I can't usually get 'em myself because my girlfriend's a vegetarian which pretty much makes me a vegetarian. But I do love the taste of a good burger. Mm-mm-mm. You know what they call a Quarter Pounder with cheese in France?

Brett: No.

Jules: Tell 'em, Vincent.

Vincent: A Royale with cheese.

Jules: A Royale with cheese! You know why they call it that?

Brett: Because of the metric system?

Jules: Check out the big brain on Brett! You're a smart motherfucker. That's right. The metric system. What's in this?

Brett: Sprite.

Jules: Sprite, good. You mind if I have some of your tasty beverage to wash this down?

Brett: Go right ahead.

Jules: Ah, hit the spot.

Chapter II

An Open Project

What is an Open Project?

If you haven't understood by now, you haven't read enough the first subjects, the one talking about subject validation. Now's not the time to discuss, now's the time to complete your project.

Few reminders:

- You have validated a very specific project. What you do should be really close to it.
- You have prepared a list of everything that will be checked later. Keep it in mind, the final evaluations will be based on it.
- Time goes fast, group motivation and investment will be tested. Be vigilant.
- During defence, most of the verifications are based on what was expected at the beginning. Doing more stuff or different stuff does not bring a lot to the table.
- Time management, group management play also a very important part in the project and the defence.

Good luck, and have fun.
